ABOUT

After my **Engineering** graduation I completed **UI/UX Developer Diploma** course from **Envision Training Computer Institute**. Now my aim is to obtain a responsible and challenging **Frontend, UI/UX Developer**'s position.

I have knowledge about **HTML5, CSS3, SASS, LESS, JavaScript, jQuery, React js, Bootstrap 3,4, JSON & AJAX**. I am skilled in various kinds of code editors consisting **Atom, Visual Studio & Sublime Text**. For Designing tools, I have used **Adobe Photoshop, Xd & Dream Weaver**. I am also familiar with **MySQL, WordPress, GitHub & Heroku**.

To get some actual working knowledge of it, I **completed few responsive web pages**. Some of them mentioned below. Also, all of that web pages are connected in my Portfolio page.

OBJECTIVES

To pursue an inspiring position where I can employ my perception, skills and vision to fulfil the need of the organization, and assist them to achieve overall evolution using my knowledge in related field and simultaneously accomplish the personal growth.
